

# Electronic Volumetric Filler

**Bevcorp Electronic Volumetric bottle fillers offers the same quality features as our conventional filler line, with the added benefit of electronic volumetric filling**

Reliable magnetic or mass flow meter technology

- Fewer parts to maintain than mechanical valves
- Capable of running still and carbonated products
- Capable of running carbonated beverage products at more ambient temperatures
- Ultra clean open carousel design for ease of maintenance and wash down
- Menu-driven flavor changes
- Individual valve fill adjustments from operator interface terminal
- Allows a wide range of package sizes
- Flat path bottle handling for better bottle control
